

WebmasterWorld.com Announces Orlando Internet Marketing Conference.

(Austin, TX - USA) WebmasterWorld.com, the web's highest trafficked super forum, has announced its next Internet Marketing Conference in Orlando, Florida, USA. The three-day event, commencing on Thursday 26th February 2004, will feature four conference tracks covering Search Engine Marketing, Search Engine Optimisation, Affiliate Programs and Site Ownership/Webmaster Technology issues.

Previous conferences have attracted more than a thousand delegates from around the globe, and according to conference organiser Brett Tabke, "After the early sell-out of our London conference in September 2003 we anticipate a similar heavy demand from around the world for places at the Florida event."

There will be several keynote speeches throughout the event and ample opportunity for delegates to question and meet many of the world's leading search technology companies and executives.

The event is sponsored by major search and marketing firms, including Google, Yahoo!, PositionTech and GoToast.
